

SHARED LIVING ARRANGEMENTS IN RHODE ISLAND

Living Innovations provides support to people of all ages and abilities to have a good life at home and in the community.

Shared Living Arrangements (SLA)

Shared Living is based on carefully matching a person in need of support with a host family in a natural home, as opposed to an institutional environment. We provide personalized support in the community to people with intellectual and developmental disabilities by connecting them to other supports and resources according to their individualized needs.

The person receiving support:

- Is an active participant in the process of selecting the shared living arrangement.
- Benefits from having supports, meals and activities that are a good fit for them.
- Has the experience of a nurturing, family-like environment.
- Receives the highest level of individualized care and community inclusion compared to any other residential model.
- Our services don't end with the match; we provide 24/7 support and guidance.

Our detailed, conversational and mindful matching process finds the best fit for all involved. Our diligent process ensures a comfortable, personalized and lasting pairing.

With more than 25 years of experience helping hundreds of people thrive in Shared Living homes, Living Innovations has the knowledge and dedicated professional staff to help people have the best life possible at home and in the community.

Exclusively providing Shared Living Arrangements makes Living Innovations the local experts in this highly personalized support. We have been successfully supporting SLAs throughout Rhode Island for the longest period of time among all of the state's provider agencies. Some of the people we support have been with the same Home Provider for more than 15 years.

We are dedicated to being Rhode Island's provider of choice for Shared Living. We accomplish this by putting the people we support at the center of all we do and providing excellent customer service to all team participants, including family members, guardians and social case workers. This commitment is demonstrated by the fact we respond to more requests for emergency services than any other Shared Living provider in Rhode Island. We support SLAs in every county and corner of the state.

Our Rhode Island management team has extensive expertise and experience in providing services for people with a broad range of intellectual and developmental disabilities. That depth of experience allows us to provide comprehensive, personalized and inclusive services to meet the very unique needs of each person we serve.

Please contact us to determine supports that can be individualized for you or a loved one.
